

Sinclair Broadcast Group is now instructing their 62 local stations, many in battleground states, to preempt regular programming to air a Kerry smear piece two weeks before the election. This unprecedented move would be direct electioneering by a corporate media giant -- and against federal election law.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. They will not be serving the public interest with this type of one-sided show.

It is your duty to prevent this unfair and flagrant tactic.

Thank you,

Jeffrey Korn
